Behavioral Health Care for Refugees Webinar Series: Mental Health Issues of the Refugee Population – Compliance and Adherence to Treatment

Date: Thursday, October 27, 2016

Time: 12:00 – 1:00 pm

Topic: In response to an introductory webinar in February, this is the third in a series of webinars Dr. Kroupin will offer to further explore the refugee experience as it relates to behavioral health.

This session of the webinar series will address problems of compliance through presenting a holistic perspective on refugee patient care connecting all areas of patients’ life.

This webinar is free, but space is limited. To register, e-mail CJ at Carroll.J.Helm@HealthPartners.Com

This webinar and other upcoming webinars on this topic will be recorded and available for viewing later at http://www.stratishealth.org/pip/antidepressant.html

Presented by:
Georgi Kroupin, Ph.D., LMFT; MA, LP - HealthPartners Center for International Health

Dr. Kroupin is a Licensed Marriage and Family Therapist and Psychologist with expertise in cross-cultural issues for individual assessment and therapy, family therapy, and group therapy. He joined HealthPartners in 1994 and has over 22 years of experience with immigrants and refugees. He is considered an expert in the area of refugee behavioral health.

Who should participate: Health care providers, nurses, public health, health educators, social workers, therapists, Community Health Workers and anyone who interacts with individuals from other cultures.

Objectives:
• Know basic definitions related to compliance and relevant statistics in this area
• Understand national/cultural differences in offering and utilizing healthcare services
• Increased ability to approach health from an Existential perspective: Being versus Non-Being
• Understand the roles of agency and communion in healthcare
• Increased ability to address multiple dimensions of patients’ lives to improve compliance and outcomes

This program has been designed to meet the Minnesota Board of Nursing’s criteria for 1.2 contact hours of required continuing education. It is the responsibility of each nurse to determine whether a continuing education activity meets the criteria established by the Minnesota Board of Nursing.

This webinar is presented by a collaboration of Minnesota health plans working to improve antidepressant medication management in Minnesota. Thank you to Blue Plus, HealthPartners, Hennepin Health, Metropolitan Health Plan, Medica and UCare for their commitment to this issue.
