**Title:** Leadless Pacemakers (CAG-00448N)

**Decision:** The Centers for Medicare and Medicaid (CMS) will cover leadless pacemakers through Coverage with Evidence Development (CED).

**What this means:** Leadless pacemakers are considered an experimental procedure. However, Medicare recently determined that leadless pacemakers will be covered when done as part of a Medicare approved clinical study. Medicare will also cover, in prospective longitudinal studies, leadless pacemakers that are used in accordance with the FDA approved label for devices that have either an associated ongoing FDA approved post-approval study, or completed an FDA post-approval study.

Leadless pacemakers are non-covered outside of Medicare approved studies.

Effective: 1/18/17
