Behavioral Health Care for Refugees Webinar Series: 
Mental Health Issues of the Refugee Population – Screening, Diagnosis and Treatment

Date: Monday, July 25, 2016
Time: 12:00 – 1:00 pm

Topic: In response to an introductory webinar in February, this is the second in a series of webinars Dr. Kroupin will offer to further explore the refugee experience as it relates to behavioral health.

This session of the webinar series will look at mental health issues in the refugee population and discuss screening, diagnosis and effective treatment of these patients.

This webinar is free, but space is limited. To register, e-mail CJ at Carroll.J.Helm@HealthPartners.Com

This webinar and other upcoming webinars on this topic will be recorded and available for viewing later at http://www.stratishealth.org/pip/antidepressant.html

Presented by:
Georgi Kroupin, Ph.D., LMFT; MA, LP - HealthPartners Center for International Health

Dr. Kroupin is a Licensed Marriage and Family Therapist and Psychologist with expertise in cross-cultural issues for individual assessment and therapy, family therapy, and group therapy. He joined HealthPartners in 1994 and has over 22 years of experience with immigrants and refugees. He is considered an expert in the area of refugee behavioral health.

Who should participate: Health care providers, nurses, clinic administration, public health, health educators, social workers, therapists, Community Health Workers and anyone who interacts with individuals from other cultures.

Objectives:
- Identify the most common sources of mental health issues in refugees
- Understand the difference between screening and diagnosing mental health issues
- Identify at least 3 of the most common mental health issues in refugees
- Identify at least 2 effective treatment approaches

This program has been designed to meet the Minnesota Board of Nursing’s criteria for 1.2 contact hours of required continuing education. It is the responsibility of each nurse to determine whether a continuing education activity meets the criteria established by the Minnesota Board of Nursing.

This webinar is presented by a collaboration of Minnesota health plans working to improve antidepressant medication management in Minnesota. Thank you to Blue Plus, HealthPartners, Hennepin Health, Metropolitan Health Plan, Medica and UCare for their commitment to this issue.
