PAYMENT POLICY INSTRUCTIONS

A payment policy assists in determining provider reimbursement for specific covered services. To receive payment, the provider must be in a contractual relationship with UCare and provide services to a member enrolled in one of UCare’s products. This payment policy is intended to provide a foundation for system configuration, work instructions, call scripts, and provider communications. A payment policy describes the rules for payment, which include applicable fee schedules, additional payment rules by regulatory bodies, and contractual terms. This policy is a general guideline, and may be superseded by specific provider contract language.

PAYMENT POLICY OVERVIEW

UCare provides coverage and payment for Free-Standing Birth Centers. This policy outlined the billing and payment guidelines for these services.
