## **2020 STEP THERAPY CRITERIA**

**UCare Connect + Medicare (SNBC) (HMO D-SNP)**

**UCare's Minnesota Senior Health Options (MSHO) (HMO D-SNP)**

In some cases, UCare's MSHO and UCare Connect + Medicare require you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, UCare may not cover Drug B unless you try Drug A first. If Drug A does not work for you, UCare will then cover Drug B. This is a list of drugs that require these steps for us to provide coverage.

UCare's MSHO and UCare Connect + Medicare (HMO SNP) are health plans that contract with both Medicare and the Minnesota Medical Assistance (Medicaid) program to provide benefits of both programs to enrollees. Enrollment in UCare's MSHO and UCare Connect + Medicare depends on contract renewal.

**Effective 02/01/2020**
